

Zebra EM 220

Zebra EM 220 is a new pocket-sized printer for mobile payment and document printing.

Zebra EM 220 is a new pocket-sized printer for mobile payment and document printing. The ultra-small EM 220 printer is a convenient mobile receipt printer easily fitting in a pocket, which is a key issue in customer-facing environments.

The EM 220 printer is a user-friendly device, offering intuitive operation and optional Bluetooth® 2.0 wireless connectivity. It is ideal for a variety of applications: onboard transportation ticketing, citations and fines, mobile point of sale, queue busting, simple receipt printing for events, amusement parks, concessions, restaurants, gas stations, parking lots.

Zebra EM 220 printer is small, lightweight and easy to use. One-touch media loading, one-touch integrated card reading, and only four buttons simplify putting in and pulling out of media. Models with Bluetooth connectivity contain an integrated magnetic card reader. It is a flexible solution, ensuring low cost and high quality printing.
