

Zebra P4T/RP4T

Zebra P4T/RP4T is the world's first mobile RFID printer.

The easy-to-wear and carry Zebra P4T and RFID-enabled RP4T mobile printer is the first of this type solution on the market. The printer allows for printing long-life bar code labels (of width 51 - 102 mm) and documents that withstand harsh and outdoor environments where and when you need them - resulting in enhanced data and asset-tracking accuracy and improved workforce efficiency.

Zebra P4T/RP4T printer is ideal for a variety of applications: manufacturing and warehousing, transportation and logistics, healthcare, retail, mobile workforce. With its order-now-or-later RFID option, the P4T/RP4T printer is perfect if you need point-of-application UHF EPC Gen 2 smart labelling for closed-loop or compliance applications.

Standard features include: 8 MB Flash/16 MB SRAM memory, USB 2.0 serial connection, 32 bit processor, large LCD, smart battery and ribbon cartridge, sensor detecting gaps, black bar, media, media width, door ajar and ribbon, shoulder strap.
